Notifications by the Judicial Commissioner, &c.

REVENUE SURVEY AND SETTLEMENT DEPT.

NOTIFICATION.

No. 361. *The 12th May* 1880.

Notice is hereby given for general information that the Survey settlement of the Goribidnur Taluk of the Kolar District of the Nundydroog Division will be commenced on or about the 12th June next.

J. P. GRANT, *Major*,
Supt., Rev. Survey & Assessment, Mysore.

FINANCIAL DEPARTMENT.

ISSUE OF COPPER IN PAYMENT OF ESTABLISHMENT BILLS.

To—The Deputy Commissioners of Districts, Treasury Department, Circular No. 1471, *dated———May* 1880.

The Deputy Accountant General has the honor to request that immediate steps may be taken to supply all the Taluk Treasuries which may need British copper coins, to enable them to make payments to the Public Works Department, in accordance with the accompanying instructions of the Superintending Engineer, No. 71, dated 4th instant, addressed to the Executive Engineers in Mysore.

Ten per cent of all Executive Engineers' cheques cashed by contractors, and five per cent of those on account of salaries are to be paid in copper. Should objection be raised to so large a proportion in any particular case, such as the pay of an officer, payment may be made as required and the case reported to this office.

Five per cent of all Civil, Municipal and District Fund Establishments should under the same rule be paid in British copper, as well as the local force.

From the Superintending Engineer of Mysore, Public Works Department, To all Executive Engineers, Mysore, Circular No. 71, dated 4th May 1880.

The Deputy Accountant General having intimated that there are large surpluses of copper in some of the District and Taluk Treasuries, the Superintending Engineer has consented to an arrangement by which ten per cent of the amount of all cheques cashed by contractors, and five per cent of all salaries may be disbursed in copper by Treasury Officers whenever necessary.

2. Where large gangs of coolies are employed, officers of the department as well as contractors will often be able to take a still further sum in copper from Treasuries where surplus exist.
